Colours – if you would like to use your brand colours then please provide these; either as RGB, CMYK or hex codes.

If you would like to choose your own colours please do so. I would advise using a minimum of three colours and a maximum of six.

If you have an image that you like the colours in, or have seen a colour palette then please include a photo or attach a file and I can pick the colours out.

<u>Background style</u> – do you want the full background (see A above) or border background (see B above)	
<u>Background colour</u> – please advise which colour you would like as your background colour	
<u>Invoice details</u> *please note that your Team HeART will be produced once the invoice has been paid and money received.
